

Prevention SIG Webinar Series

Multimorbidity in the Rochester Epidemiology Project

Register today for the next event in the
Prevention Scientific Interest Group (SIG) Webinar Series!

Register for the Webinar

Friday, June 11, 2021

10:00–11:00 a.m. ET

Presented by

[Walter A. Rocca, M.D., M.P.H.](#)

Professor of Epidemiology and Neurology, and the *Ralph S. and Beverly E. Caulkins* Professor of Neurodegenerative Diseases Research Mayo Clinic

Introduction by [Marcel Salive, M.D., M.P.H.](#)

Health Scientist Administrator, National Institute on Aging

About the Webinar

After describing the Rochester Epidemiology Project records-linkage system, Dr. Rocca will summarize his exciting research on the epidemiology of multimorbidity (MM) and highlight his team's findings using MM as a clinical marker of accelerated aging.

[Registration](#) is required and open to the public.

About the Prevention SIG Webinar Series

The [Office of Disease Prevention \(ODP\) Prevention SIGs](#) develop collaborative research initiatives to address unmet prevention research needs across the NIH. This new Prevention SIG Webinar

Series is designed to provide a space for the public to hear from prevention research experts and thought leaders who are making advances in public health. Designed as a platform to engage and interact with various stakeholders, this series will highlight research topics including comorbidity, screening, health and housing, health disparities, and prevention research capacity building. Lectures within the series will be delivered by subject matter experts from across the globe and will include time for questions and discussion with presenters.

For more information, reach out to the ODP contacts listed below:

- Dr. Melissa Green Parker: melissa.greenparker@nih.gov
 - Ms. Kaitlin Akif: kaitlin.akif@nih.gov
-

If you are an individual with a disability who needs any assistance or assistive devices to participate in this event, please contact [Kaitlin Akif](mailto:kaitlin.akif@nih.gov) at least two business days in advance of the event, so we can discuss your needs.
